

Math success is our goal

"BYOD, Smartphone, Tablet, Desktop and SmartBoard Compatible"

EQAO Quizzer is an on-line mathematics curriculum resource tool designed by Ontario Certified Mathematics Teachers for students and teachers. It offers students practice tools with full worked solutions to improve their math understanding, on any device, anywhere. It gives teachers the ability to quickly create their own assessments and evaluations using extensive question banks. Teachers can also track their student's progress and grades easily with the simple to use auto-grading features. Designed for students, teachers, schools and boards to improve student learning engagement, improve student outcomes and mathematical achievement while supporting differentiated instruction.

Student Features

Makes studying for math easy and convenient.

Interactive web and mobile site - study anywhere, anytime

Great preparation for tests, final exam and EQAO Test

Instant feedback with answers and full solutions

Teacher Features

- Create online reviews, quizzes, tests or homework questions from our test banks, or create your own questions
- Track student success and grades, print assessments, or work through questions with your class on a SmartBoard or overhead projector
- Reduce your preparation and planning workload with our premade evaluations, tools and auto-grading features

Manage classes and track grade history

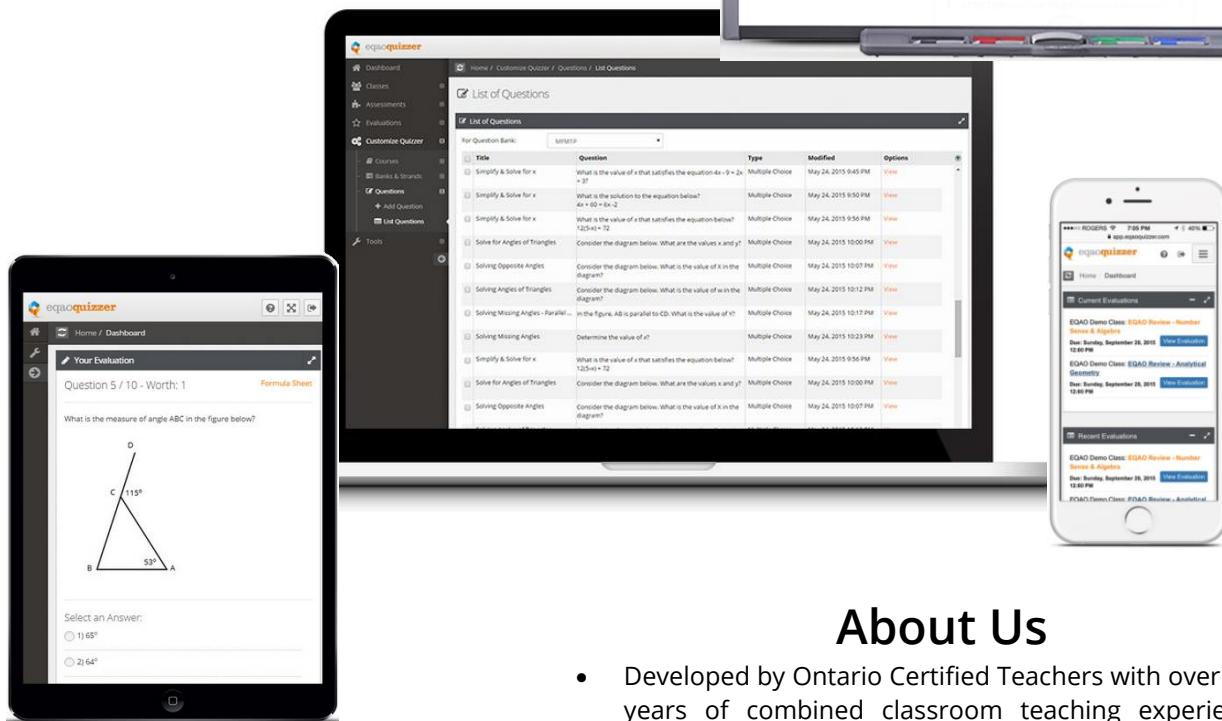

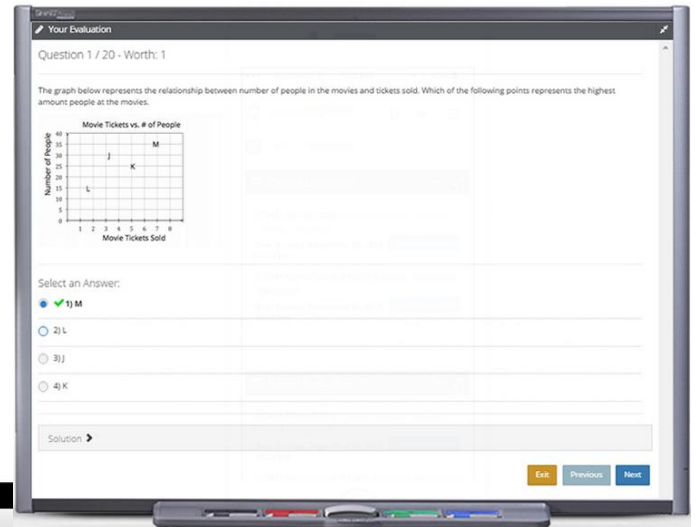

Online assessments available for in-school and home use

Assessment bank questions separated by strands

Schools and Boards

- Access for all teachers at a school / board level
- Custom pricing dependant on total users
- Use technology to extend learning beyond the classroom
- Web based, no special hardware or software required
- Support Assessment FOR, OF and AS learning by providing alternate types of assessment
- Get students prepared for on-line testing now
- Support School and Board Improvement Plans
- Empower students to participate actively in understanding the mathematical ideas, skills, and thinking processes

About Us

- Developed by Ontario Certified Teachers with over twenty years of combined classroom teaching experience in mathematics, physics, science, and business
- Usability and functionality designed to be easy to use for teachers and students with minimal learning curve

"As a mathematics teacher I designed EQAO Quizzzer to complement how my students learn and to make it easier for me to be a more effective teacher. In addition it saves me preparation time and I can track student work more quickly and effectively. I can identify those that may need more individual attention helping them to better succeed at math."

- Mirella Tehrani, OCT (Co-Founder and Secondary School Math Teacher)
